Results of Examinations:

Questioned print appearing on specimens Q2 and Q3 was prepared using an ink-jet print process. The ink-jet print process is available with numerous brand-name printers.

No watermarks, indented writing, or other physical characteristics which might provide information as to the origins of specimens Q1 through Q3 were observed during their examination.

If a subsequent search of the FBI Anonymous Letter File (ALF) results in positive findings, you will be advised in a separate report. Appropriate data will be added to the ALF for future reference.

Observations for Investigative Assistance

It is suggested that the following be considered if known, dictated writings are to be obtained for comparison with the Q1 and/or Q3 specimens: the writer should not be allowed to view questioned specimens prior to the exemplar being given. Upon completion of each exemplar it should be removed from view. Hand printing should be requested in upper and lower case letters, executed a number of times using a ball point pen, and dictated in the same wording on blank paper and envelopes similar to the questioned specimens.
